

My experience

While earning my degree from New Mexico State University in International Business in 1989, I have also enjoyed the opportunity of working with many great companies over the years such as, United Parcel Service, Citigroup/Citicorp and Southwestern Bell. This corporate experience plus others not mentioned have given me quite a healthy corporate vantage point. While gaining my college education I was able to begin creating my own businesses and assisting others in developing their businesses for greater profit and growth.

My Clients

Over 20 years of developing projects and working with clients to meet their deadlines, clients from all types of industries have invited us to assist in meeting their needs. A few of my clients include; RM Investments, Ralph's Carpet & Tile, Manzanares Corporation, College of Santa Fe, Site Santa Fe, St. Johns College, Santa Fe Opera, Lensic Theater, Ventana Gallery, Hahn Ross Gallery and many others available upon request. My clients needs vary from project to project, thus flexibility and project analysis has become one of my greater skill sets. Being able to identify the various methods to achieve ones goal, in order to offer the decision maker the choice of paths to take is the method I project.

My Vision

Allowing an individual the freedom to express their goals and ambitions verbally is the most effective method to conceive a project. Once conceived the project will take on a life of its' own. My goal is to assist the owner/manager/director in allowing the forces of the project to run their course. Whether it be a Direct Mail project, Ironworks project or Development project, simply present me with the variables and visions will present themselves.
